

The past three years I have been supporting K-Love because of their positive, uplifting venue. As a grandmother I am confident that the music and commentary on K-Love will not offend but rather encourage my family to be better people. There is no other station that meets the needs of both youth and adult with contemporary music - enjoyed across the generations.

If K-Love were not broadcasting, I would feel their absence greatly. In the world of negativism and terrorism it is a comfort to find encouragement from the music and the wonderful DJ's - to make a positive difference in my day and in the thousands of listeners they have in this community.

Please! we must not allow their voice to be silenced.
